Take Payments Through Epic

Seamless payments. Better experience & support.

The Basys Epic Integration makes it easier for healthcare systems to collect payments directly inside Epic—helping your team save time, reduce errors, and improve the patient experience. Powered by iQ Pro+, this integration connects secure payment processing to the Epic workflows you already use every day.

- ⊘ Secure, PCI-compliant payments
- ⊘ Real-time reconciliation
- ⊘ No third-party portals
- ⊘ Built for healthcare systems

Patient Bill

Patient Portal

Make a Payment

Powered by **Bā·sys**

Features & Benefits

Simplified Patient Payment

Patients can view and pay their balances directly in Epic—no phone calls or mailed statements.

Real Time Reconciliation

Payments post automatically in Epic, reducing manual work and billing errors.

PCI + Breach Protection

Keep sensitive data secure while minimizing your organization's PCI burden.

Flexible Payment Options

Support for card and ACH payments, plus recurring payment plans for patients.

Branded, Compliant Experience

Deliver a seamless, secure experience that aligns with your organization's brand and compliance standards.

Dedicated Onboarding & Support

Implementation handled by our award-winning team—no heavy lift for yours.

Faster Collections, Lower Costs

Reduce administrative workload and operational costs while improving patient payment speed and satisfaction.

Quick, Guided Implementation

Our experts manage setup from start to finish, so your team can focus on care—not configuration.
